amplia gama de servicios de la biblioteca hace un poco complejo el enfoque de la búsqueda de algo concreto. Hay que usar bastante la página antes de dominarla.

El entorno de la página de la biblioteca es muy pobre y generalmente tienes que dar demasiadas palabras clave que te hagan encontrar lo que buscas

Búsqueda de libro complejas

Algunas veces que no localizo el libro pero en el mostrador me lo solucionan

Es un poco intuitiva.

La interfaz de la web algo complicada en ciertos puntos de la búsqueda que complican siendo la búsqueda de información.

Excesivas ventanas antes de la información requerida

Dificultad en la búsqueda de artículos

Cuando vez localizo un recurso electrónico, en la web, no consigo acceder a él. Si su acceso no es fácil no tienen su sentido de recursos en la web.

Si no tienen un acceso intuitivo, hay que navegar mucho para encontrar lo que se necesita.

La interfaz de la biblioteca y del catálogo fama no permiten una navegación cómoda y una fácil localización de los recursos o de los apartados a consultar.
